SUMMARY

ICT student and emerging software developer with practical experience building web applications and AI-powered software through project-based development. Comfortable working with modern frontend and backend technologies, APIs, databases, Git/GitHub and AI development tools.

Currently developing deeper skills in software engineering, backend development, artificial intelligence, databases, system design and deployment. Interested in software development internships, technology opportunities and practical engineering environments where I can learn, contribute and grow.

EDUCATION

Kenya

ICT / INFORMATION & COMMUNICATION TECHNOLOGY, Current Student, Areas of Expected Graduation: Early 2028 development include software engineering, web development, artificial intelligence, databases, APIs and computer systems.

KITANDI SECONDARY SCHOOL

Kenya Certificate of Secondary Education (KCSE)

2022 – 2025

ILBISSIL TOWNSHIP PRIMARY SCHOOL

Kenya Certificate of Primary Education (KCPE)

2010 – 2022

TECHNICAL SKILLS

TypeScript
JavaScript
Python
HTML
CSS
React
Vite
Next.js
Tailwind CSS
Framer Motion
Responsive UI
Node.js
Express
REST APIs
Authentication
API Integration
OpenAI APIs
AI Application Development
AI Chatbots
Prompt Engineering
AI-assisted Development
MongoDB

MySQL
PostgreSQL
Firebase
Git
GitHub
VS Code
Linux
npm
Vercel
Netlify

TECHNICAL WORK

I actively build and maintain software projects across web development, artificial intelligence, systems, business applications and e-commerce.

GitHub: github.com/jark-zenith

Selected projects, source code, development history and technical work can be reviewed directly through my GitHub profile.

PROFESSIONAL DIRECTION

Building toward a career in software engineering and artificial intelligence, with a long-term interest in technology products, automation and entrepreneurship.

Currently focused on strengthening practical engineering ability through continuous project development, GitHub-based work and AI-assisted learning.

CORE STRENGTHS

- Practical, project-based learner - Software development and problem solving - AI-assisted development - Independent project development - Git and GitHub workflow - Continuous technical learning - Product-oriented thinking - Teamwork and collaboration - Adaptability and willingness to learn

INTERESTS

Software Development • Artificial Intelligence • Technology • Innovation • Entrepreneurship • Photography • Videography
